Our first Summer programme at the new facility is only a few weeks away!

We have worked hard to create a programme that can be accessed by all ages throughout the week.

The attached programme is intended as a guide only and there is flexibility in which sessions your child can attend.

We would love to see as many children & adults from the local area give tennis a go!

If you are interested in any session please get in touch with Joe below and he will be more than happy to help with any enquiry.
